Surgical Table Guide

Leading the way in efficiency, positioning and patient safety.

Skytron surgical tables are designed to bring efficiency, positioning flexibility and improved patient safety to your operating room. By choosing a Skytron surgical table and pairing it with our full line of complementary accessories you'll be prepared to handle most procedures and specialties with ease.

Imaging Efficiency

As the market leader in top slide and top rotation, our surgical tables allow superior imaging and surgeon access at the click of a button or turn of a handle. Top slide tables permit the convenient movement of your patient through the imaging window, and top rotation tables give C-arm access to both the head and foot end of the table. All Skytron surgical tables offer a low profile base that won't be in the way of your imaging equipment.

Surgical Positioning Flexibility

With removable back and leg sections, our tables provide a wide array of accessory and positioning options to accommodate multi-surgical specialties. Preprogrammed positioning options allow for quick setup at any point during the procedure, eliminating the need for manual patient maneuvers, and generous weight capacities accommodate patients of all sizes.

Improved Patient Safety

Unlike others on the market, Skytron's rotation top tables have tops that rotate independently of the table base. This rotates the surgical site to the side of the table without a base underneath, eliminating conflicts with equipment and providing greater surgical access. True table top rotation allows movement of the patient without unlocking the table, keeping the table locked firmly in place and eliminating the need for risky manual repositioning of the patient.

3008 Clarity Imaging

500 pound weight capacity includes lift and top slide

20° trend and tilt

Providing 20° of trend and tilt, the 3008 Clarity takes the work out of imaging setup. Radiolucent table top creates a minimum 65" of imaging length with added length possible with optional extensions. Tilt and trend support a 300 pound capacity through the entire range of motion.

Differentiating Features

- Radio-lucent top for low dose images with excellent clarity
- Fluoroscopy made easy with lateral and longitudinal movement of floating top
- One button float top control provides infinite control of direction and speed
- 83" Carbon-fiber top for full body imaging
- 65" of unobstructed imaging length
- One touch return to level
- 500 lb lift and top slide capacity
- Float top design provides easy movement for patients up to 500 pounds

3603 Ultra Slide

Top Slide

Delivering 26" of top slide without any compromises

26" Top Slide, General Purpose Table

Offering the industry's maximum top slide, the 3603 Ultra Slide Series takes the work out of imaging. At the click of a button, the patient can be moved throughout the expansive imaging window.

Differentiating Features

- 26" top slide
- 10" slide to head and 16 1/2" slide to foot
- 1,000 lb lift and 800 lb articulation weight capacity
- Removable back and leg sections for quick accessory attachment and positioning
- Power beach chair positioner for one-touch set-up
- Durable stainless steel base is easy to clean
- 35° lateral tilt
- 40° Trendelenburg and 30° reverse Trendelenburg
- Adjustable table height
3603 20 1/2" to 39 1/2"
3603H 23" to 41 1/2"

3503 EZ Slide Top Slide

Simplify full body imaging and patient positioning

21" Top Slide, General Purpose Table

Providing 21" of top slide, the 3503 EZ Slide takes the work out of imaging setup. At the click of a button, the patient is moved through the expansive imaging window.

Differentiating Features

- 21" top slide
- 7½" slide to head and 13" slide to foot
- 700 lb lift and 600 lb articulation weight capacity
- Removable head and leg sections for quick accessory attachment and positioning
- Durable stainless steel base is easy to clean
- 25" - 43" adjustable table height
- 20° lateral tilt
- 30° Trendelenburg and 30° reverse Trendelenburg

6702 Hercules Top Rotation

210 degree

Giving operating rooms the ability to do more.

210° Top Rotation, General Purpose Table

Skytron offers true top rotation, allowing the surgeon or C-arm to remain at one end of the surgical table, and to rotate the top so that the surgical site has no table base underneath. Removable back and leg sections outfit the table with accessories for all specialties, like a beach chair shoulder positioner that is powered by the table. Skytron's beach chair replaces the table back section for the most comfortable shoulder surgery setup available.

Differentiating Features

- 210° top rotation
- 1,200 lb lift and 1,000 lb articulation weight capacity
- Removable back and leg sections for quick accessory attachment and positioning
- Power beach chair positioner for one-touch set-up
- Durable stainless steel base is easy to clean
- 23 5/8"-41 1/2" adjustable table height
- 30° lateral tilt
- 30° Trendelenburg and reverse Trendelenburg

6302 Elite Top Rotation

Bringing value and efficiency to every OR.

210° Top Rotation, General Purpose Table

Skytron offers true top rotation, allowing the surgeon or C-arm to remain at one end of the surgical table, and to rotate the top so that the surgical site has no table base underneath. With a removable leg section, accessory attachment is easy. Use with our optional 40" carbon fiber extension for improved imaging and quick setup.

Differentiating Features

- 210° top rotation
- 1,000 lb lift and 600 lb articulation weight capacity
- Removable back and leg sections for quick accessory attachment and positioning
- Power beach chair positioner for one-touch set-up
- Durable stainless steel base is easy to clean
- 25"-39 7/8" adjustable table height
- 30° lateral tilt
- 30° Trendelenburg and reverse Trendelenburg
