

A photograph of a hospital room with a patient bed, medical equipment, and two large UV-C disinfection units in the foreground. The image is overlaid with a blue gradient and a white curved banner at the top. The text 'PICI MEDICAL' is in a large, bold, dark blue serif font, and 'UV-C SERVICE' is in a smaller, white, bold sans-serif font below it. A white horizontal bar is positioned under the text.

WHY UV-C

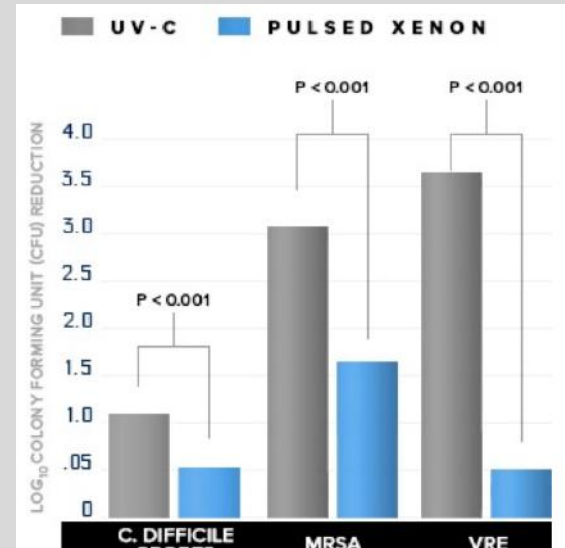

Benefits of Service

Smart dosage UV technology ensures all surfaces are sufficiently disinfected every time

Full follow up reports for rooms and areas disinfected

Trained, full time employee for all disinfections

Order service at your discrepancy

Our UV-C robot's no touch technology ensures that all surfaces, even hard to reach and shadowed areas, are effectively disinfected.

Best-in-class germicidal energy results in a higher pathogen kill rate when compared to traditional methods and pulsed xenon UV technologies.

SmartDosage UV Dose Assurance Technology reduces human error and eliminates danger of under-dosing.

OTHER SERVICES

- UV-C equipment rentals
- Work station disinfection service and table top UV-C rentals
- Cleaning solution consultation
